Philipp's Exchange at Our Organizational Unit

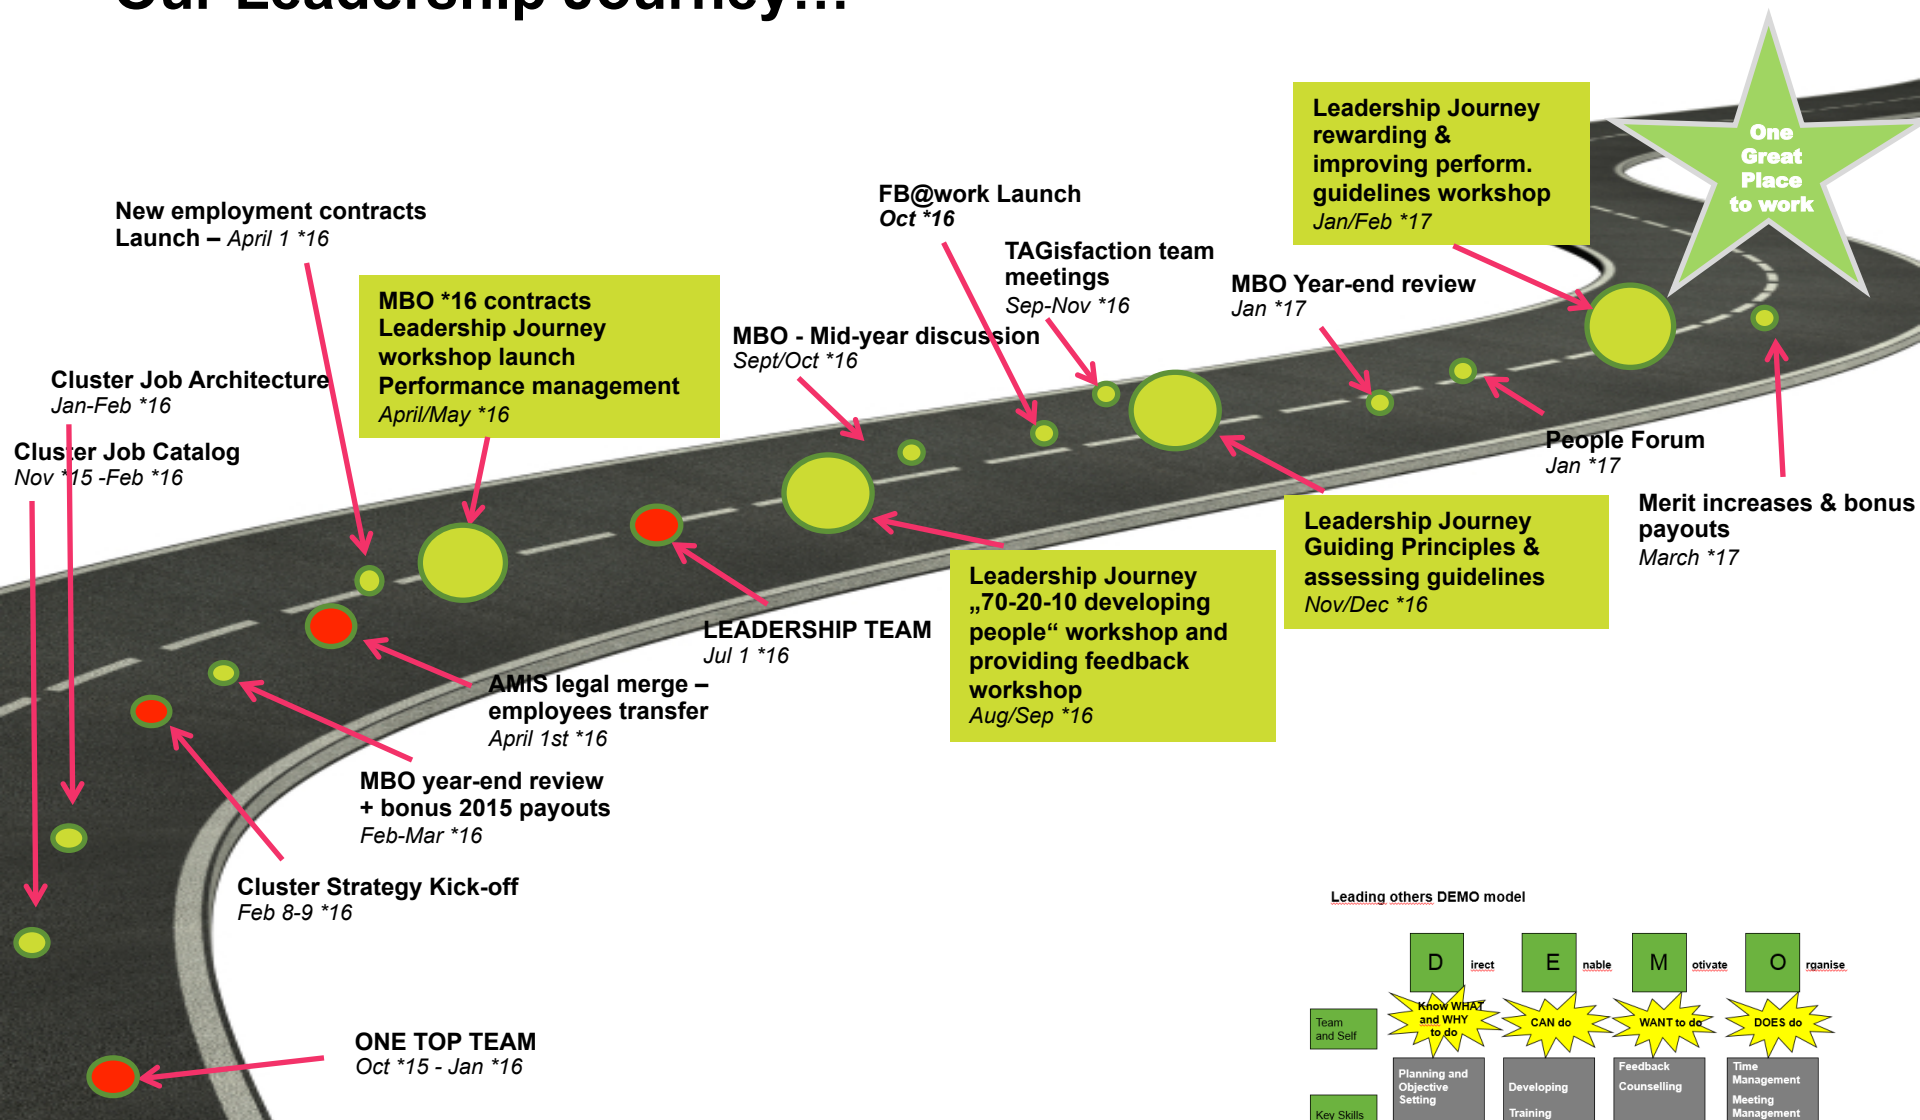

Over the last 3 weeks **Philipp Mirti** (EA Development, A1), experienced the great privilege of having an intensive x.change experience in the our organizational unit. As a part of the **2016/17 Group Young Potential Program** his goals were to proactively learn from others, getting to know new operational approaches, and building networks across different cultures. Besides engaging in business relations, he was also introduced to a broad range of different aspects relating to Slovenian and Serbian culture. This picture says it all.

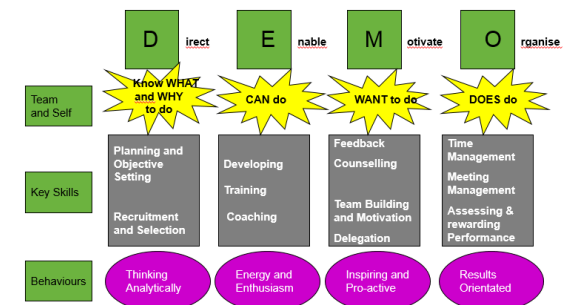

Outstanding engagement survey results at our cluster

Our Leadership Journey...
